

Customer Form BSD 2.0

In order to remotely monitor your GENSYS using a BSD 2.0, you will need to connect to bsd20.cretechnology.com.

This will get you to an account which allows you to monitor/control all of your BSD 2.0. The BSD 2.0 are classified by « Project ». Each project matches a power plant. A BSD 2.0 by GENSYS is essential.

To make the installation easier in the most efficient and rapid way, CRE Technology fully adjust your account. We would be grateful if you could complete the attached form and send it back to us in order for us to setup/configure your account.

- GENSYS2.0 : Firmware version \geq v4.66a5
- GENSYS Compact : Firmware version \geq v1.01

Company Name:

Name of the Project:

Quantity of BSD 2.0 for :

- | | |
|---|-------|
| - GENSYS 2.0 <input type="checkbox"/> | Qty : |
| - GENSYS COMPACT PRIME <input type="checkbox"/> | Qty : |
| - Other <input type="checkbox"/> | Qty : |
