ZOHO ASSIST PC APPLICATION

Ethernet

If you would like to remotely access our 24/7 demo controller to evaluate our remote management tool, do the following:

- Login to <https://assist.zoho.com> or use the Zoho Assist smartphone application
- Log in with the email address **remote-I4gen@cretechnology.com** and the password **Idemo4i4Gen!**
- Use the **"Unattended Access"** and log in to **"I4Gen demo"**.

You will get access to a generator application and a network in simulation mode. You can start/stop the generator, perform a fleeting or permanent network coupling, a normal/backup transfer,... To access the product configuration, the level 2 authentication password is **"1234"**.
